Different terms, fees or other loan amounts might result in a different comparison rate. Comparison rates for construction loans are based on an initial 1 year interest only period and a subsequent 24 year principal and interest period with interest payable at variable rate of the product it is within. Comparison rates for fixed interest only loans are based on an initial interest only period equal to the nominated fixed period and the remaining period (to 25 years) principal and interest at the equivalent product variable rate.
